

GOOD BYE 2002

It seems like only months ago I was writing the newsletter that was going to usher in the year 2002. Now, I'm wondering where this year has gone! The saying my father always said; "The older you get, the faster the years go by," is a true statement. As I reflect back on this year, I can't think of anything horrible that happened. The economy is in a rebound mode, interest rates are at a 40-year low and the weather was above normal. All's well that ends well!

Everyone at Energy Saving Systems says thank you for all your past and future business, and wish all a very Merry Christmas and a prosperous New Year!

HIGH GAS BILLS?

If you're like me, you're probably also shaking your head when reading or hearing about gas rates increasing 20-40% to combat those higher fuel bills. Try:

- Lowering temperature when gone (setback thermostats are ideal for this)
- Change air filter frequently
- Check weather striping
- Attic insulation
- Caulk gaps around windows
- Replacing that older, less efficient furnace.

WET WINDOWS

Newer homes are experiencing this problem. Homes are being built tighter these days. The moisture created in the home through cooking or showering stays trapped in the home and condenses on cool window surfaces. Air to Air Heat Recovery Ventilators handle this problem the best.

ANNUAL FOOD DRIVE

Thank you to all who contributed to our Food for the Hungry Drive. We collected over \$200.00 of non-perishable goods, which will be given to the Waukesha Food Pantry this year. Those wishing to participate received a \$10.00 coupon towards their furnace tune up or service call. Thanks again!

CONGRATS

E.S.S. has an employee of the month program that recognizes exceptional performance. The employee is awarded \$50.00.

September's winner – Kim Brennan. Kim has been with us 2 ½ years, and serves as Service Manager in the service department.

October's winner – Matt Frami. Matt is a 7-year employee. He is one of our sheet metal mechanics in the new construction/replacement field.

November's winners – yes, there was a tie! Chris Hougelin and Duane McWilliams (Mac).

Chris has been with us for 3 years and has just recently left us to pursue other goals.

Mac has been with us 6 years and is our shop metal technician. Keep up the good work!!

DRY HOME

An important aspect of home comfort is maintaining adequate humidity during the winter months. If you experience dry throats, nose bleeds or shocks when touching metal, you need more humidity in your home. Have us install the #1 humidifier on the market – APRILAIRE. Hydronic heated homes can be fitted with a self contained humidifier. Call us for details.

FILTER DELIVERY

Can't find time to get that replacement filter for your furnace? We stock Spaceguard, Honeywell, Carrier, Bryant and Airbear media filters. Also, Airscreen 1000 filter packets. We'll deliver to your house when we're in the area at no extra charge for delivery.

HOW ARE WE DOING?

We value the input we receive from our customers. If there is something we could be doing better, please let us know. We're here to serve you!!

Till spring,
