NEWSLETTER – ISSUE 8 2003

LOOKING BACK

Where did this year go? Each year seems to go by faster and faster. Familiar sounding statements? Yes, we say it every year about this time.

Looking back at 2003, it did have some disturbing events but with the economy showing signs of rebounding, helps to overshadow the events of late.

As always, with the year 2003 coming to a close, we take another moment to thank all of our customers and employees. May the joy of the Christmas season remind us to be thankful and reflect on all the goodness and blessings God has given. See you in 2004.
Tim, Ralph, Cindy & Diane

REMINDERS

Did you remember to change your filters? Did you have your furnace serviced or tuned up yet? It's not too late. The weather hasn't been grueling cold yet, so get all your winterizing done!

I FORGOT

With our busy lives and schedules, too often we forget to have our comfort equipment maintained. With our planned maintenance program we help remind you. No price increase for 2004 – YA HOO!!

INDOOR AIR QUALITY

With our homes closed up for the winter season, many concerns are directed at our company to solve dry home symptoms, dusty homes and homes that are too wet. Can we help solve your situation?

FOOD DRIVE

E.S.S. will be doing its 3rd annual food drive from January 1 till January 31, 2004. Since most food pantries are hit hard around the holidays we thought an after season drive will help restock their shelves. Donate two (2) non-perishable items and get \$10.00 off service we have performed that day, or drop off the items at our office and receive a gift certificate good for \$10.00 for future services.

WHERE ARE YOU?

Some of our customers thought it was a good idea to include directions to our office, shop and showroom. We are located by Fox Run Shopping Center in Waukesha, corner of Sunset Drive and St. Paul (X). Just west of Fox Run there is a bowling alley; drive across that parking lot to our building.

ULTRA VIOLET FILTRATION

Some of our customers have UV lighting on their furnaces. The bulbs start losing their intensity after 1 year of operation. Just a reminder to

those who have this ultimate system.

FACTORY REBATES & CASH BACK INCENTIVES

Monies are still available on variable speed 96% efficient furnaces and 12 seer plus air conditioners. Call today for your free estimate. Systems can be changed in a day.

EXTENDED WARRANTIES

Extended warranties for parts and labor can be purchased before the 11th month of your newly installed furnace or air conditioner. Call for pricing.
